

# Sewing

## Getting started

- Place the foot pedal flat on the floor. This is what you will use to run the machine.
- Turn the machine on with the power button on the right side of the machine.
- Thread the bobbin
- Place bobbin on pin at the top of the machine.
- Put thread on the spool holder.
- Put thread through threading 1.
- Wrap thread around the bobbin threading nub as shown on top of machine.
- Put tread through the whole at the top of the bobbin.
- Push bobbin and pin to the right until you hear a click.
- Hold thread at the top with one hand.
- Press on the foot pedal to start the bobbin spinning (the needle should not move).
- Note: If you want to change the bobbin, pull the black tab near the bobbin window to the right and the clear plastic cover will pop up. Remove the plastic cover and the bobbin.

## Thread the machine

- Place thread in spool holder.
- Put the thread through 1.
- Catch thread on hook at 2.
- Pull thread down the front past 3.
- Loop back up and to the left at 4.
- Pull thread over 5 and hook it in place (may need to rotate the hand knob).
- Pull thread back down and left through 6.
- Put thread through the needle's eye from front to back.
- Hold thread and place bobbin in the machine.
- Pull thread across the thread catch.
- Rotate hand wheel one full rotation until you hear a small click and needle is at the top of its movement.
- Pull thread out from under the needle.
